Beautiful, charming studio apartment, situated in nice location in one of the most beautiful city streets. It is housed on the third floor of a pre-war building with an elevator. The apartment has been excellently renovated and everything is perfectly structured in a small area. It has a double bed and a built-in closet in the part that is visually separated from the kitchen and dining room. The kitchen is small, very nice and complete. The bathroom has a shower cabin and a washing machine. Great option for one or two people who want to live in the city center, near the Sava River.
